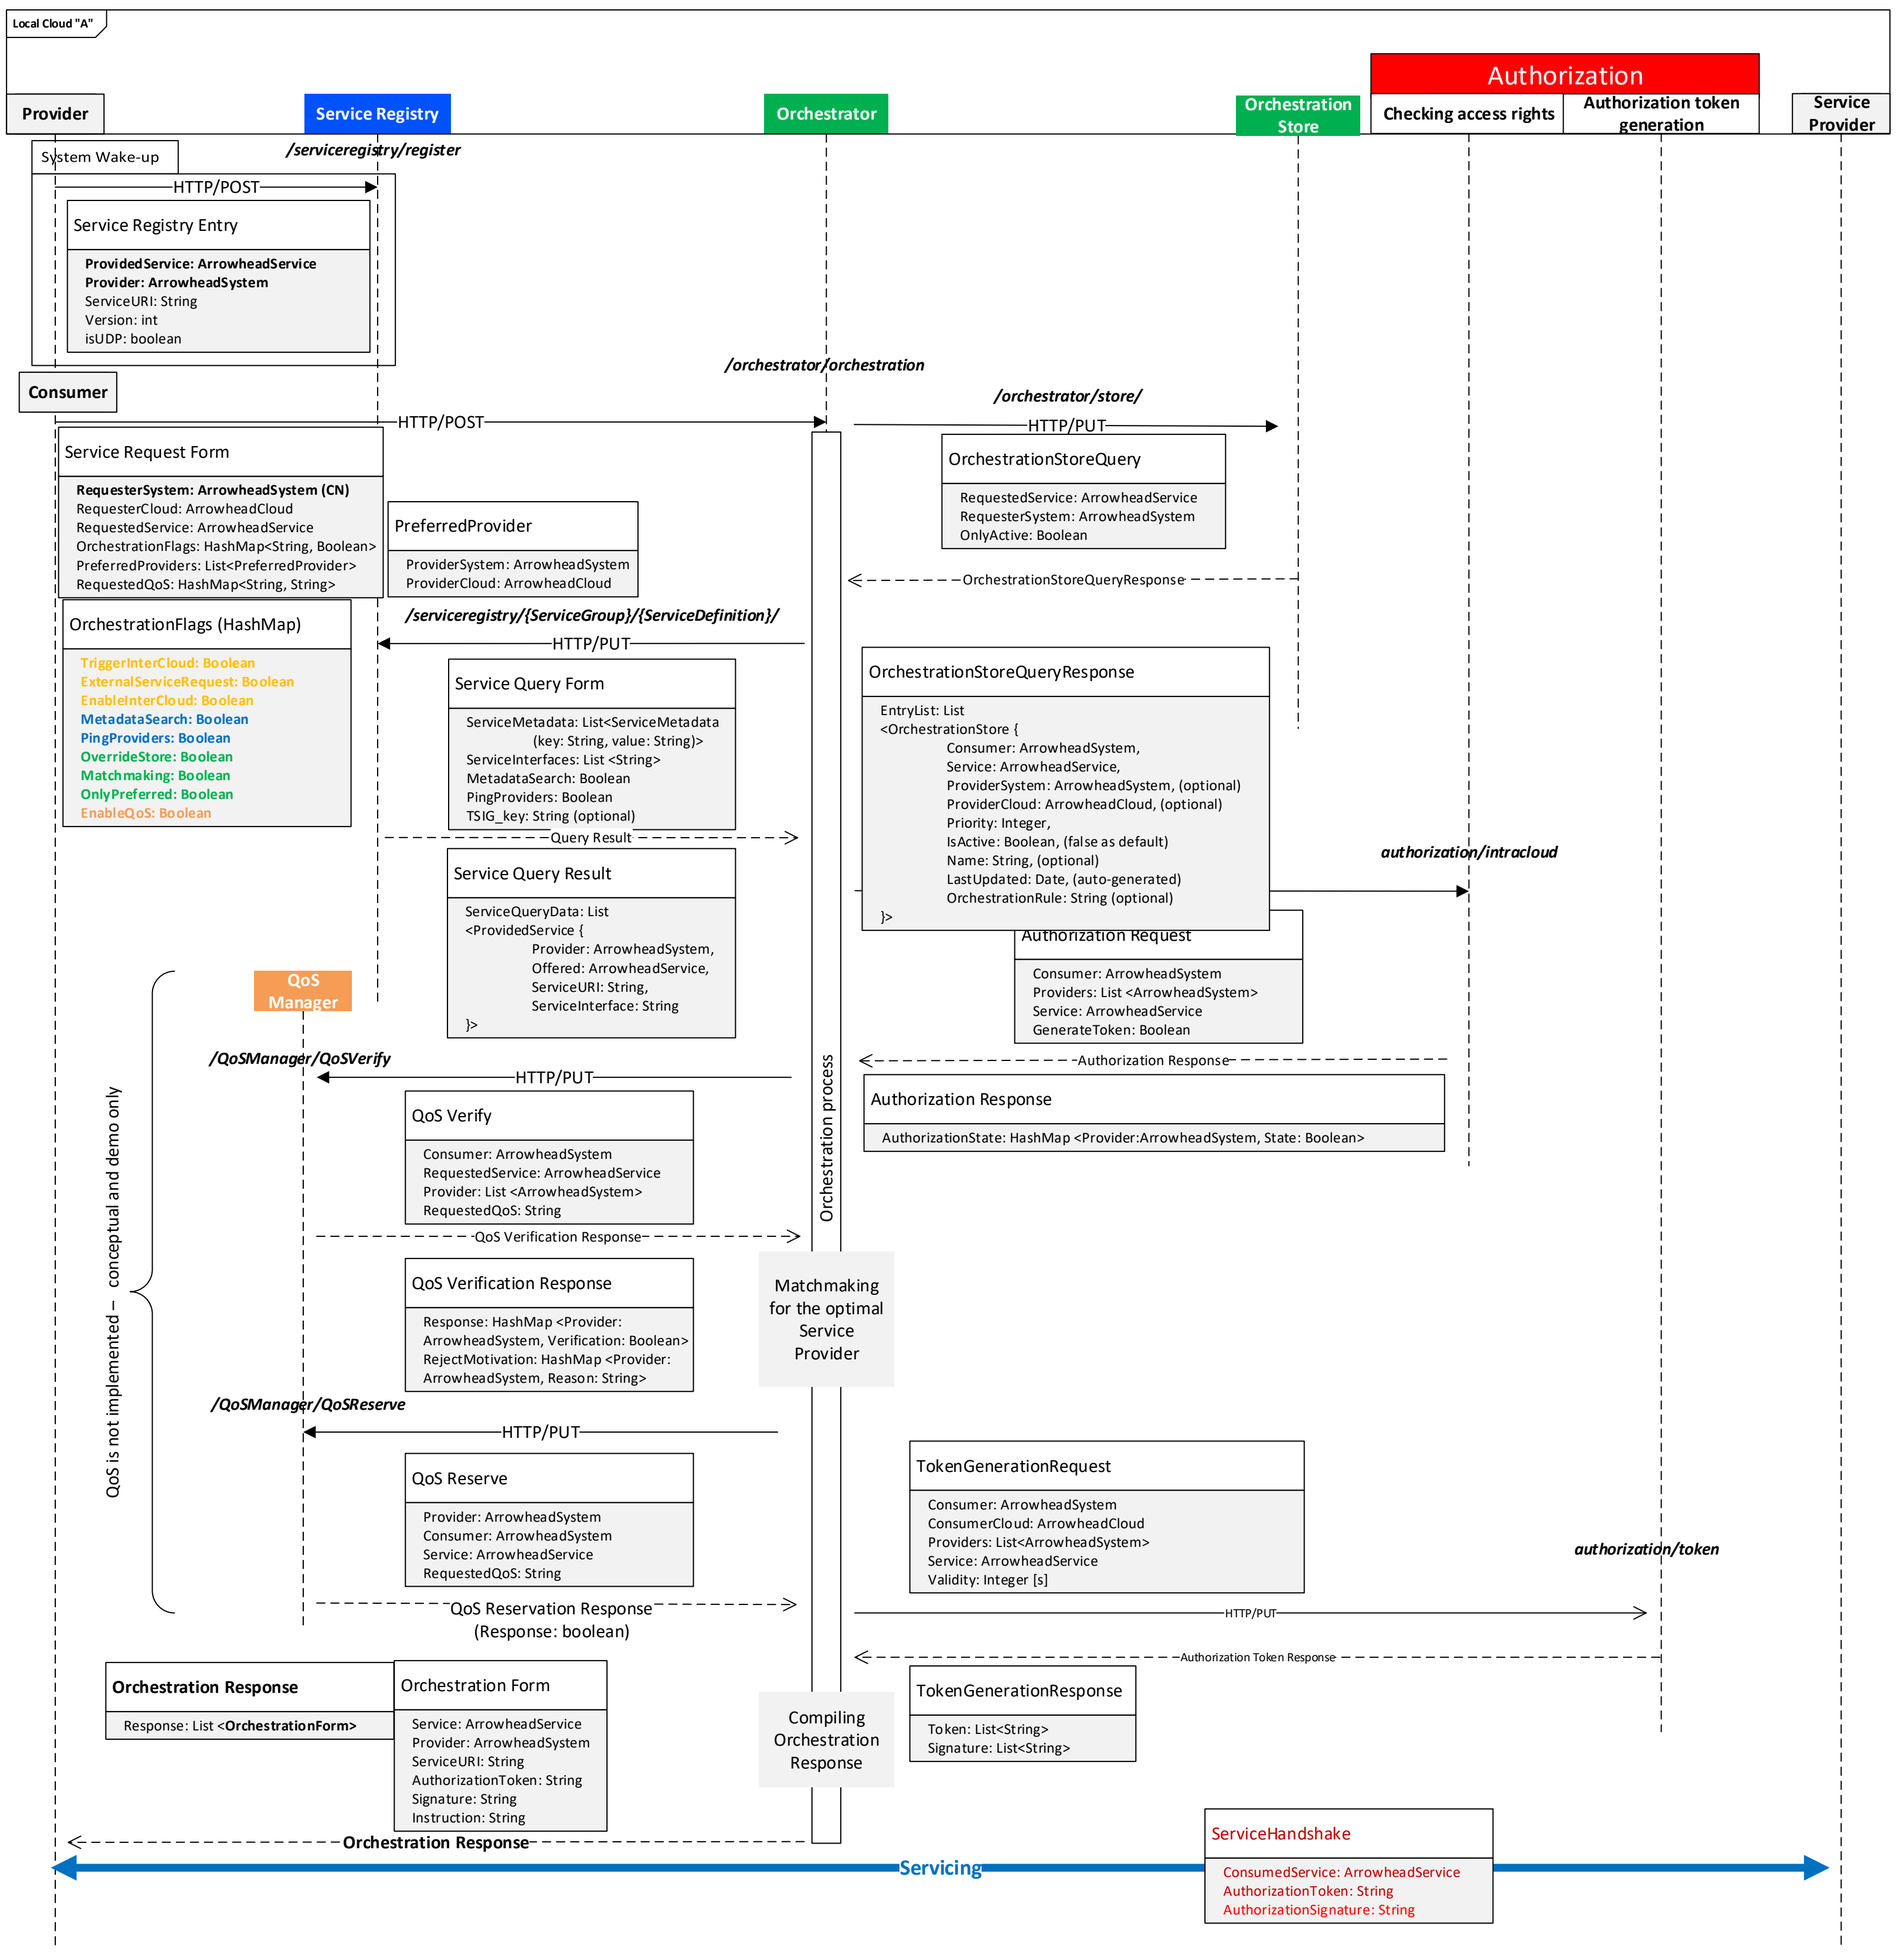
Dynamical Orchestration sequence (intra-Cloud)

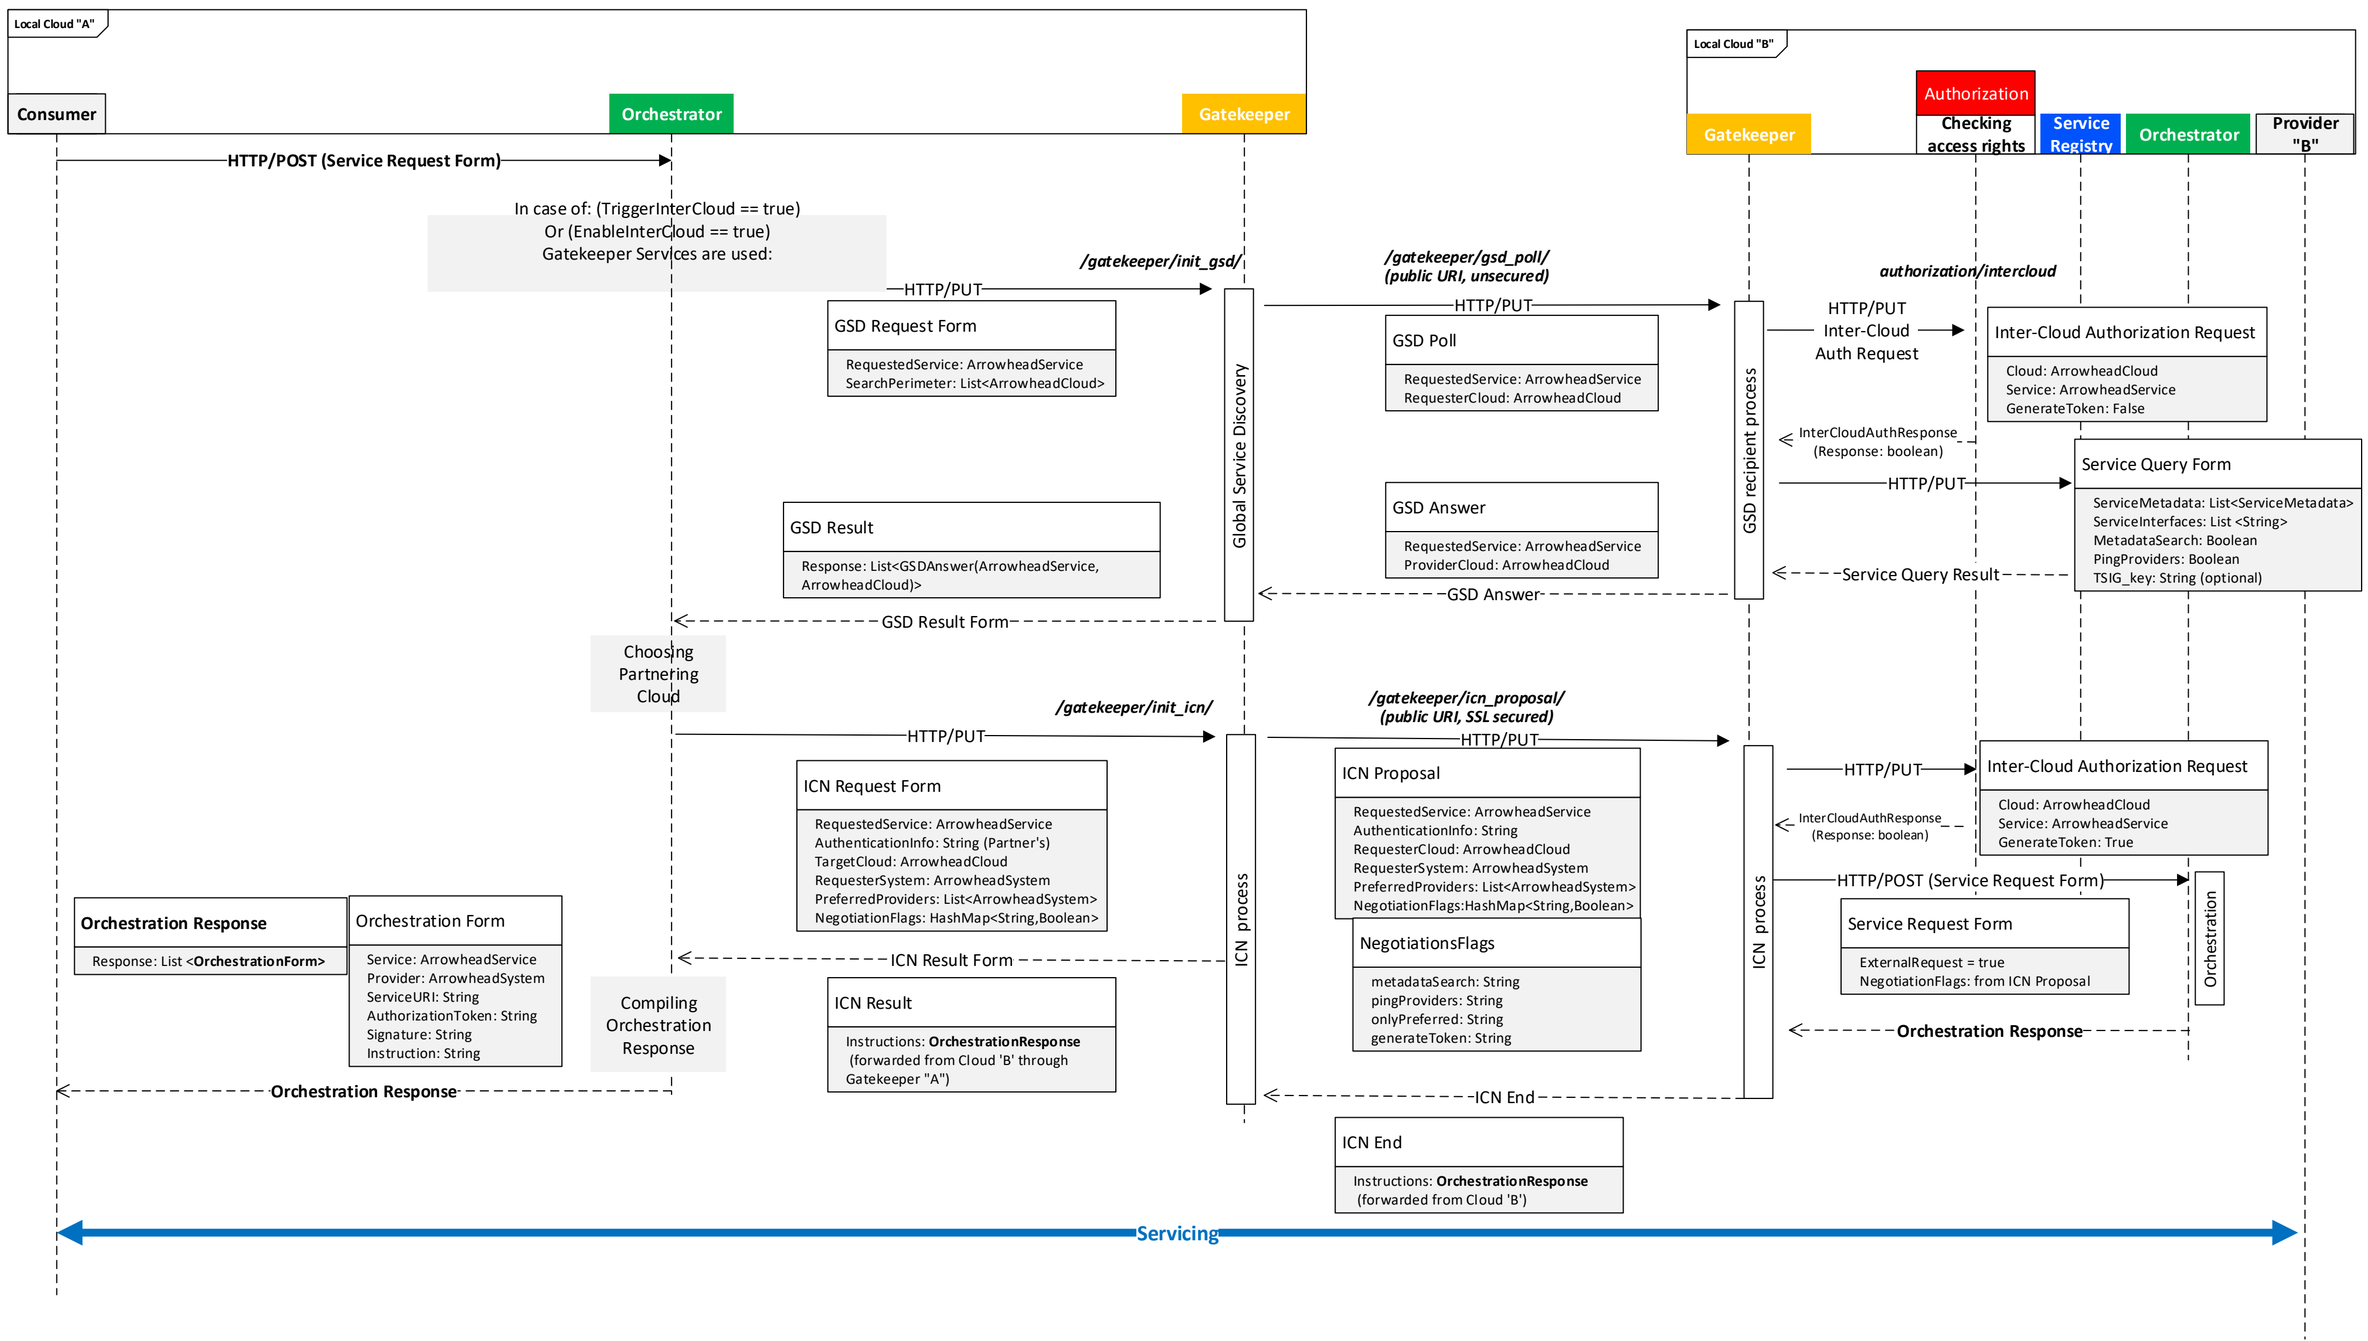


Common Arrowhead REST / Java model classes used by all communications

Common Arrowhead Descriptors

ArrowheadService
- serviceGroup: String
- serviceDefiniton: String
- interfaces: List <String>
- serviceMetadata:List<ServiceMetadata(key: String, value: String)>

ArrowheadSystem
- systemGroup: String
- systemName: String
- address: String
- port: String
- authenticationInfo: String

ArrowheadCloud
- operator: String
- cloudName: String
- address: String
- gatekeeperServiceURI: String
- port: String
- authenticationInfo: String


Inter-Cloud Orchestration
